Defining and measuring what matters

## What's in it for decision-makers, the public and elected officials

- Decisions are based on data, making it easier for everyone to understand
- Translates needs into actions that are measured and monitored
- Uses scenario planning to understand tradeoffs
- Provides a framework for better prioritizing investments

# Stakeholder Engagement

## TRANSPARENCY & ACCOUNTABILITY

- Access to info and opportunities to participate
- Stakeholders can track project info
- Decision-making processes are transparent

## INFORM

- Ensure Alaskans have the information to purposefully engage and provide feedback

## GOALS of the PIP

## INNOVATE & LISTEN

- Opportunities for engagement and feedback
- Feedback can be provided from home
- Everyone is heard

## EQUITY

## Project Introduction

Transportation plays a role in everyday life, both for individuals and for the entire state of Alaska. Transportation includes walking, biking, ferries, trains, buses, vehicles, and planes and impacts how people get groceries, go to the doctor, travel to visit friends or get to work, and move resources like food and fuel in and out of Alaska. The Alaska Department of Transportation & Public Facilities (DOT&PF) is planning a comprehensive approach to clearly map out our future transportation goals and priorities for Alaska through 2050.

DOT&PF's **Long-Range Transportation Plan (LRTP)** provides the long-term vision, policies, and decision-making framework that will guide the transportation system over the coming years. It does not identify individual projects to build. The LRTP is the official state transportation plan and is required to meet both state and federal mandates.

The **Freight Plan (FP)** will serve as a guide to maintain and improve the freight transportation system, and support the state's economy and raise the quality of

life for Alaskans. It will identify priority projects and freight project funding for the next six budget years.

Subscribers of Alaska 2036 Statewide Long Range Transportation Plan or Statewide Transportation Improvement Program (STIP) and Needs List (1335 recipients)

The Alaska Department of Transportation and Public Facilities (DOT&PF) has launched a short survey and virtual public meeting as part of the Statewide Long-Range Transportation Plan and Freight Plan (LRTP/FP).

The LRTP/FP provides the long-term vision, policies, and decision-making framework that will guide the transportation system over the coming years and maintain and improve the freight transportation system.

Your voice is important in the planning process. We ask that you:

- Take the 10-minute survey to help DOT&PF understand how you use transportation within Alaska and your priorities for transportation within Alaska here: <https://www.surveymonkey.com/r/2HZRY22>
- View the virtual public meeting to learn more about how DOT&PF is planning to better connect Alaskans and keep us all moving through 2050: <https://arcg.is/1vGLCf0>

The survey and virtual public meeting will be available through June 30, 2021.

For more information, please visit the project website: <http://alaskamoves2050.com/>
